

Eco-to-go Containers

Now at Rogers Cafe

In an effort to increase our sustainability efforts, Monarch Dining will be piloting a new eco-to-go container system at Rogers Café. We will be transitioning from the disposable to-go containers that have been used in the past, to reusable to-go containers that can be washed and re-used.

Here is how it works:

▶ **These to-go containers will only be available for use in Rogers Café.** When you first request to take out your meal, you will receive an eco take-out container. The cashier will swipe your ODU ID card, which will indicate that a container has been given out to you.

▶ **The container is reusable so do not throw it away.** It needs to be returned to either Rogers Café or to the Gresham C . We do ask that you rinse or wipe the container out before it is returned. The cashier will then swipe your ODU ID card, which will indicate the container is returned. We will clean and sanitize these containers and they will be re-used.

***Please note: If you fail to return your eco-to-go container and you will to take food to go, you will be charged \$5.00 for another eco-to-go container.**

▶ **Monarch Dining is always trying to take steps to lessen our environmental footprint.** We do appreciate your cooperation and participation as we try to become greener. We would love to hear your feedback about this new eco to-go container. Contact us at dining@odu.edu and let us know what you think.
