

Gluten Free Products

Elon Dining Services is proud to provide gluten free products at many of our dining locations this year for our students with allergies to gluten. We have made an effort to put gluten free products in most of our residential and retail units across campus. Below is a list of products that can found at all the dining locations. We will identify all products with gluten free signage. As we research more products we will be able to provide them in the locations. If you have recommendations for products please email Laura Thompson at tabacchi-laura@aramark.com and she will see if we can get them stocked.
